Christien Anthony Music

Christien Anthony Music is an entertainment agency specializing in weddings and corporate events. They wanted to communicate a bold, classy and clean new look to attract their desired clientele. I helped them achieve this by managing their social media platforms, shaping their voice through copy, revamping their website layout, creating a seamless look in stationery, and creating/editing content (photos, videos, graphics, and motion graphics).

Calendar

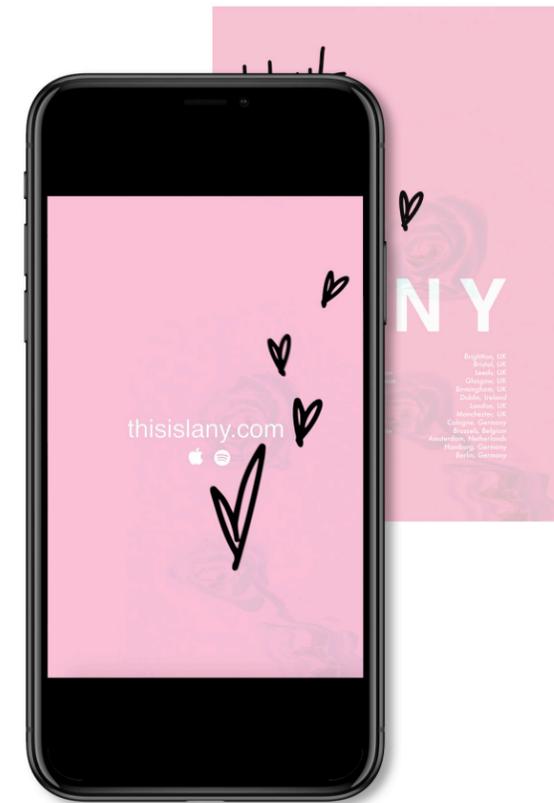

Not all things are black and white, but this calendar is! This minimal floral calendar is made to show the beauty in simplicity even amidst an eventful year.

Pioneer Worship

Pioneer Worship is a worship band that organizes pop-up worship and prayer nights to encourage others to pioneer their personal God-given walks. To help them blaze their trail, I created a magazine highlighting their core values.

LANY

Reinterpretation of LANY's original album design where I explored unconventional processes by combining rigid type with handwritten lyrics over images produced by running roses through a scanner. With the poster as the trigger, I made a motion graphics piece featuring their hit single as an interactive AR promo for their tour, music, and website.

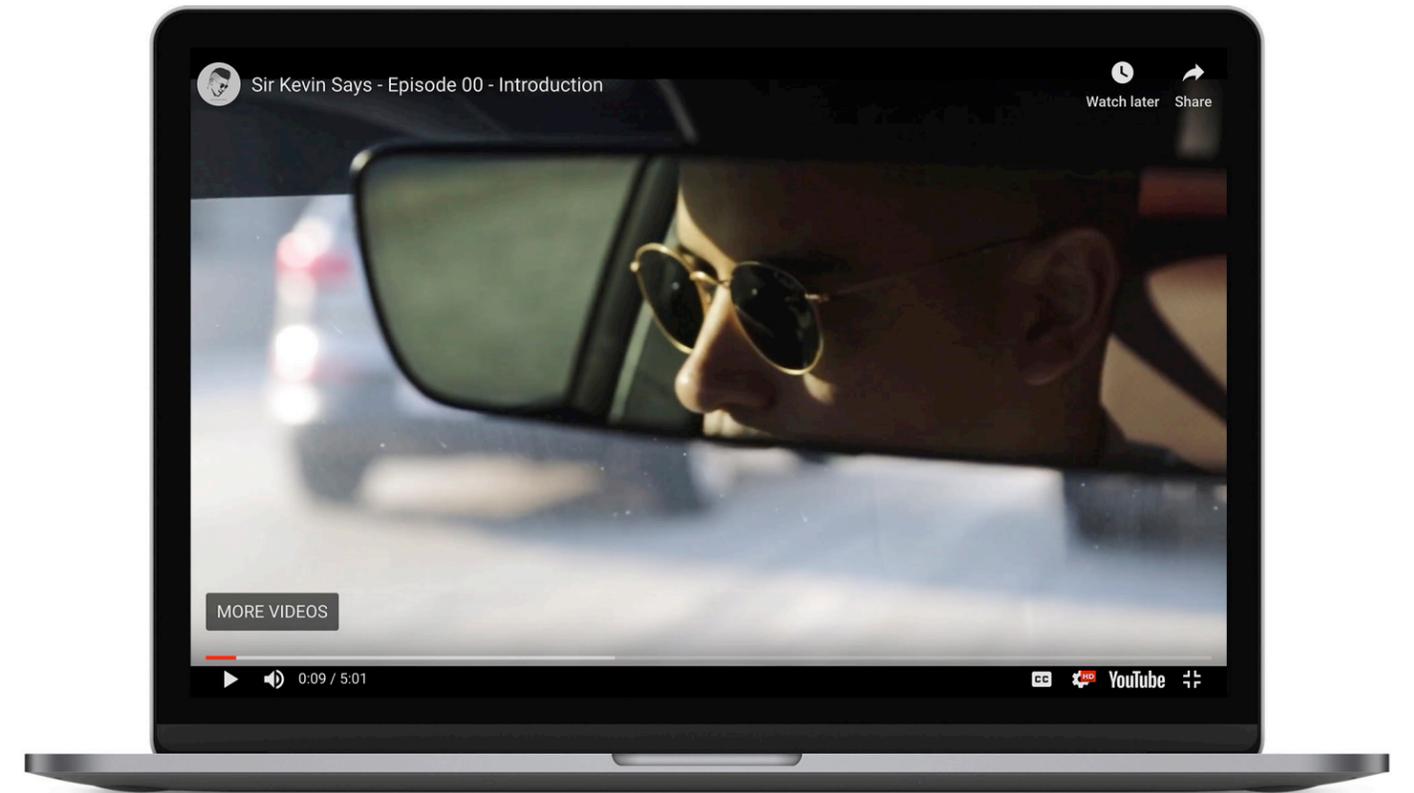

MOTION GRAPHICS

Coca-Cola

A pitch to incorporate AR as a fun way to increase sales by having unique motion graphics pieces play as overlays when directed to package labels as the triggers. This original motion graphics piece shows a Coca-Cola can transforming into a drum set grooving to the song "Can't Stop the Feeling!" to suggest that you can't stop that good feeling after tasting an ice cold Coca-Cola.

LOGO DESIGN/VIDEO

Sir Kevin Says

Kevin Chong is a professional drummer who has worked with high profile names like Leona Lewis, Becky G, and NBC's "The Voice." He launched a video and audio podcast to give aspiring musicians tips on how to find success in the music industry. I contributed to his podcast project by creating a logo and intro theme video.
